

1. Don't stare directly in to the lens, when in operation.
2. Never open any cover. There is danger of high voltage.
3. Careful attention must be paid not to block the ventilation opening (inlet/outlet) to prevent damage due to internal overheating.
4. To prevent the damage of lamp, please be careful not to turn the main power off not unplugging the power cord with in two minutes after power off.
5. No contact while working , or right after the lamp is off since the exhaust port and the lamp lid generate heat.
6. Please use an electric outlet which can be grounded.
7. Do not insert a metal object or anything flammable into the exhaust vent. This may cause fire or electric shock.
8. Contact your dealer when cleaning dust inside the projector.
9. Lamp of this product contains mercury and must be recycled or disposed of according to local, state or Federal Laws.
